ABOUT ME

Final-year Electronics and Communication Engineering student at Sri Tontadarya College of Engineering, Gadag, with a strong interest in Software Development, IoT, Web Development, and AI-powered applications. Passionate about solving real-world problems through technology and building scalable software solutions. Seeking a Software Engineer role where I can contribute, learn, and grow while developing impactful products.

EDUCATION

Pre-University Course (PUC)

Science (PCMB)

Swami Vivekanand PU College, Hulkoti

2021 - 2023

Bachelor of Engineering (B.E.)

Electronics & Communication Engineering

Sri Tontadarya College of Engineering, Gadag

2023 - 2027

MAJOR PROJECT

Smart Parking Management & Slot Allocation System

Tech Stack: React.js, TypeScript, Node.js, Express.js, Socket.IO, SQLite/MySQL, Arduino, ESP8266, Leaflet.js, OpenStreetMap

Project Highlights

- Developed a real-time smart parking management system with live slot monitoring.
- Integrated NodeMCU (ESP8266), IR sensors, servo motor, LCD display, and buzzer for automated parking control.
- Built a responsive dashboard showing real-time parking slot availability.
- Implemented secure Login and Signup authentication.
- Added real-time communication using Socket.IO.
- Integrated interactive maps using Leaflet.js and OpenStreetMap.
- Designed the system to support QR-based parking entry and future online payment integration.

SKILLS

- Problem Solving
- Object-Oriented Programming
- Time Management
- Team Collaboration
- Quick Learner
